Location: Karaj, Iran

## Professional Summary:

Results-driven Backend Developer with 2 years of specialized experience in developing robust financial and real estate investment platforms using NestJS. Proven expertise in designing scalable RESTful APIs, optimizing database performance, and implementing secure payment processing systems. Complementary skills in Java backend development and Laravel framework with extensive full-stack background including mobile development (Flutter/Android). Passionate about writing clean, maintainable code and solving complex backend challenges.

## Technical Skills:

- Backend: NestJS, Java Spring Boot, Laravel (PHP), RESTful APIs, Microservices
- Databases: PostgreSQL, MySQL, MongoDB, Redis, TypeORM
- DevOps: Docker, CI/CD pipelines, Git
- Testing: Jest, Unit testing, Integration testing
- Additional: TypeScript, mql5, HTML/CSS
- Mobile: Senior Mobile Developer - Flutter (Dart), Android (Kotlin/Java) - iOS (Swift)

## Professional Experience:

### Backend Developer (NestJS) | Decimetr | 2023-Present

- Developed and maintained financial dashboard applications handling real estate investment data
- Implemented secure payment processing systems handling high-volume transactions
- Designed RESTful APIs
- Optimized database queries improving application performance
- Collaborated with frontend teams to ensure seamless integration

### Java Backend Developer | IranApps | 2019-2020

- Developed backend services for android application market using Java ecosystem
- Worked with MySQL database design and optimization
- Participated in code reviews and agile development processes

### Freelance Backend Developer | Self-Employed | 2015-2025

- Delivered various backend solutions for clients across multiple industries
- Developed Laravel-based applications for diverse business needs
- Created custom API solutions for mobile applications
- Worked with clients in fintech, real estate, and e-commerce sectors

**Industry Expertise:**

- Financial Technology: Payment systems, transaction processing, financial dashboards
- Real Estate: Property management platforms, investment tracking systems
- E-commerce: Order processing, inventory management, payment integration
- Healthcare: Appointment systems, patient data management
- Nutritions: Expertise in creating health tracking apps, calorie counters, diet management

**Notable Projects:**

- Financial Investment Platform ([Decimetr](#)): NestJS backend for real estate investment tracking
- Healthcare Management System ([BabaTeck](#)): Patient appointment booking and management system
- Social Media ([coideate](#)): Building scalable and engaging social platforms, featuring real-time communication, content feeds, and community management tools to foster user interaction.
- Mobile Backend Services: Various API services supporting Flutter and Android applications ([IranApps](#))

**Education:**

Bachelor of Science in Computer Software Engineering  
Azad University, Qazvin, Iran | 2008-2014

**Additional Information:**

- Languages: Persian (Native), English (Professional Proficiency)
- Contributor to open-source projects
- Regular participant in tech meetups and conferences
- Mobile development expertise provides unique perspective on API design
